### BOXWOOD GREEN MOUNTAIN SPIRAL

#### Sun Lover

6 Hrs of Sun Minimum

3' TALL X 2' WIDE IN 5 YRS

Upright, pyramidal, tightly branched form. Dark green evergreen foliage. Good alternative to Taxus Capitata.

### BOXWOOD GREEN TOWER BOXWOOD

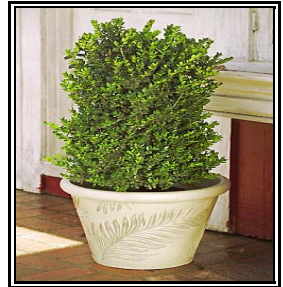

#### Sun Lover

6 Hrs of Sun Minimum

9' TALL X 2' WIDE IN 5 YRS

The perfect hedge plant for tight spaces with strong topiary value. Very columnar form produces lustrous dark green leaves with lighter underside. Medium to fine texture foliage does not brown-out in winter.

### BOXWOOD WINTER GEM BOXWOOD

#### Sun Lover

6 Hrs of Sun Minimum

2-3' TALL X 2-3' WIDE IN 5 YRS

Fast growing and densely branched. Dark green color retained even in severe winters. Excellent hedge.

### HOLLY CASTLE SPIRE BLUE HOLLY

#### Sun Lover

6 Hrs of Sun Minimum

4-8' TALL X 3-4' WIDE IN 5 YRS

A beautiful new compact, pyramidal blue holly with large lustrous dark green leaves, bright red berries and superior branching. A great foundation plant, specimen or hedge plant that can be used as a replacement for Capatata Yew. Easy to prune to size desired.

### HOLLY CASTLE WALL BLUE HOLLY

#### Sun Lover

6 Hrs of Sun Minimum

5-8' TALL X 5-8' WIDE

The growth habit is upright, quite similar to a Hicks yew, and it can be used in the same way. It makes a great hedge, or foundation plant. Easy to prune to size desired.

### HOLLY EMERALD MAGIC BLUE HOLLY

#### Sun Lover

6 Hrs of Sun Minimum

6-8' TALL X 3-6' WIDE IN 10 YRS

A small, non-fruiting (male) broadleaf evergreen shrub with bristle-tipped, glossy blue-green leaves, which take on a burgundy tinge in winter. Uses in the Landscape: Use in low hedges or as foundation plants. Excellent alternative to boxwoods.
